1. EXECUTIVE SUMMARY

1.1 INTRODUCTION

Shri Late J.K.K. Natarajah, a revered philanthropist from Kumarapalayam, Tamil Nadu, sparked a transformative educational movement in the 1960s. Witnessing the challenges faced by young girls in his community, who had to trek 2.5 km to Bhavani for education, he took decisive action. In 1965, he founded the J.K.K. Rangammal Girls Higher Secondary School, followed by the J.K.K. Nattraja Matriculation Higher Secondary School in 1969. Establishing the J.K.K. Rangammal Charitable Trust the same year, he fortified his vision for literacy and women's empowerment, positively impacting the socio-economic landscape.

Committed to gender equality, he inaugurated the J.K.K. Nattraja Arts and Science College for Women in 1974, further expanding educational opportunities. This momentum continued with the establishment of the J.K.K. Nattraja College of Pharmacy in 1985 and the J.K.K. Nattraja Dental College in 1987. His daughter, Smt. N. Sendamaraai, now serves as the Managing Trustee, perpetuating the trust's educational legacy across diverse disciplines. Today, under her dynamic leadership, the trust oversees ten educational institutions, spanning Dental, Pharmacy, Nursing, Education, Engineering, Arts, and Science, including Government-Aided Girls' and Matriculation schools, symbolizing a legacy of empowerment and excellence.

J.K.K. Nattraja College of Pharmacy, situated 2 kms east of Kumarapalayam on NH-544 (Salem-Kochi Highway), is more than an institution; it is a beacon of innovative learning. Since its inception in 1985, it has pursued a mission to cultivate an enriched academic environment anchored on innovation, bioconvergence, and avant-garde research in pharmaceutical sciences. Recognized by the Government of Tamil Nadu, approved by the Pharmacy Council of India, and affiliated with The Tamil Nadu Dr. M.G.R. Medical University, Chennai, the college attracts a diverse international student body.

With an initial enrollment of 40 students and 10 faculty members, the college has grown significantly, now accommodating approximately 700 students under the guidance of 49 dedicated faculty members. Emphasizing skill-based learning and real-world exposure, the college molds students into adept professionals poised to revolutionize the pharmaceutical and healthcare sectors. Beyond academic rigor, the institution prioritizes research, attracting students from various countries like Kenya, Sudan, Saudi Arabia, Palestine, Mauritius, Oman, and Iran.

In addition to maintaining discipline and academic standards, J.K.K. Nattraja College of Pharmacy focuses on integrated teaching, skill-based learning, and practical exposure through industrial and hospital training. By incorporating employability perspectives into its curriculum, the college aims to equip students with the necessary skills for success while fostering a sense of responsibility as responsible citizens of India.

Vision

To be a Leading Global Innovative Solutions provider for the ever-changing needs of society.

Mission

To cultivate a dynamic learning environment that fosters innovation, bioconvergence, and cutting-edge research in pharmaceutical sciences, equipping Learners with the knowledge and skills to excel as leaders in developing and applying novel drugs and healthcare solutions.

1.2 Strength, Weakness, Opportunity and Challenges(SWOC)

Institutional Strength

- **Established Educational Trust:** J.K.K. Nattraja Educational Institutions, a trailblazing educational trust with a legacy dating back to 1952 in Kumarapalayam, Tamil Nadu, stands as a beacon for quality education, fortified by robust management support. J.K.K. Nattraja College of Pharmacy, established in 1985, holds the distinction of being among the pioneer private Pharmacy Colleges in the region. With over 35 batches having successfully graduated, the institution boasts a vast and far-reaching alumni network.
- **Proactive Management:** Guided by the visionary leadership of Shri S. Ommsharravana, the institution actively engages in both government and non-government startup initiatives, fostering a culture of innovation and institutional advancement.
- **Non-interference in Academics:** A cornerstone of our strength lies in the management's commitment to non-interference in academic affairs, thereby granting the institution autonomy to uphold academic excellence.
- Experienced and Dedicated Faculty: J.K.K. Nattraja College of Pharmacy prides itself on a cadre of experienced and dedicated faculty members who embrace a contemporary, student-centered teaching methodology. Drawing from nationally renowned institutions, many faculty members bring with them international exposure, enriching the academic environment across all departments.
- **Government Hospital Collaboration:** One of the key strengths of J.K.K. Nattraja College of Pharmacy is its collaboration with Government Headquarters Hospital, offering Pharm D students and aspiring pharmacy professionals unparalleled access to invaluable hospital and clinical exposure. This partnership fosters hands-on learning experiences, enhancing students' practical skills and preparing them for successful careers in pharmacy. Such real-world exposure is a unique benefit that sets our institution apart, ensuring graduates are well-equipped to excel in the healthcare industry.
- **Diverse Program Offerings:** The institution provides a comprehensive array of programs spanning from undergraduate to Ph.D. levels in pharmacy, broadening educational avenues for students.
- **Holistic Learning Environment:** Nestled within a lush, multi-institutional campus, the institution fosters cross-disciplinary interactions and holistic learning experiences.
- **Multiple Institutes within the Campus:** J.K.K. Nattraja College of Pharmacy offers students the unique advantage of being part of a multidisciplinary educational ecosystem housing various colleges. This collaborative environment nurtures interdisciplinary collaboration and exposes students to diverse fields, enriching their educational journey.
- **Technology Integration:** Embracing technological advancements, the institution seamlessly integrates new technologies into teaching, research, and administrative processes, fostering a dynamic and innovative learning environment.

Institutional Weakness

- **Limited Curriculum Autonomy:** Our institution operates under the affiliation of The Tamil Nadu Dr. M.G.R Medical University, which constrains our curriculum flexibility. This limitation impedes our

capacity to swiftly align our academic offerings with the evolving societal demands.

- **Restricted New Program Growth:** Affiliation with the university restricts our authority to confer degrees and introduce novel programs, thereby impeding the development of innovative courses due to financial and regulatory constraints.
- **Narrowed Multi-disciplinary Research:** Regulatory barriers prohibit non-pharmacy faculty from supervising doctoral students, thereby constraining opportunities for multi-disciplinary research exploration.
- **Industrial Collaboration Limitations:** The absence of proximate pharmaceutical industries poses challenges in fostering industrial collaborations and exposure. Our reliance on distant urban centers for linkages presents logistical challenges, although endeavors are ongoing to fortify collaborative efforts.
- **Research Funding:** Securing substantial research funding from government and other agencies poses a formidable challenge for our self-financing college, necessitating strategic initiatives to enhance financial support avenues.

Institutional Opportunity

- **Start-up & Innovation:** In the current national landscape, there is a significant emphasis on startup initiatives, presenting a favourable opportunity for our pharmaceutical institute with its robust experience.
- **Globalization in Education & Innovation:** The evolution of technology and shifts in government policies have opened avenues for higher education institutions to forge strong collaborations with international counterparts for research and educational advancements.
- **Teacher Quality Improvement Initiatives**: J.K.K. Nattraja College of Pharmacy consistently spearheads initiatives aimed at enhancing teacher quality, with a focus on fostering effective teaching and learning. Faculty members are actively encouraged to participate in regular training sessions aimed at skill enhancement.
- **Multi-disciplinary Research Scope:** Being part of the J.K.K. Nattraja Educational Institutions ecosystem, the college benefits from operating within a multi-disciplinary framework. This facilitates opportunities for cross-disciplinary research endeavors and student training, facilitated by collaborations across various departments. Additionally, collaborations with the Arts & Science College can foster exploration into language proficiency.
- **Specialized Programs:** The institution is committed to introducing new programs in emerging areas of pharmacy, such as Nuclear Pharmacy, Pharmacogenomics, and Pharmacokinetics, to cater to evolving industry demands and academic interests.

Institutional Challenge

- **Fund Development Challenge:** The institution grapples with the formidable challenge of securing necessary funds. Ongoing endeavours are dedicated to mobilizing resources and fostering financial sustainability.
- **Translating Theoretical Knowledge**: Converting theoretical knowledge into practical understanding poses a significant challenge for the institution, influenced by operational costs, industry competition, and rapid technological advancements in the pharmaceutical sector.
- **Rural Student Employability**: Equipping students from rural backgrounds with technical and interpersonal skills to enhance their employability presents a notable challenge that the institution is committed to addressing through tailored training programs.

- **Bridging Academia-Industry Gap**: Efforts are underway to bridge the gap between academia and industry, ensuring alignment with emerging industry demands and fostering collaborations to enhance industry-relevant education and research.
- **Strengthening Industry-driven Research**: The institution places a strong emphasis on bolstering research endeavours aligned with industry needs, aiming to enhance the relevance and impact of research outcomes.
- **Pilot Industrial Plants Establishment:** Recognizing the value of establishing pilot industrial plants for both hospital supplies and enriching teaching-learning experiences, the institution acknowledges the financial challenge associated with implementing such initiatives and is exploring strategies to overcome this obstacle.
- **Pharm D Placement:** Addressing the placement challenges faced by Pharm D students remains a priority for the institution. Active engagement with hospital authorities and physicians is underway to enhance awareness and improve placement opportunities for Pharm D graduates.

1.3 CRITERIA WISE SUMMARY

Curricular Aspects

J.K.K.Nattraja College of Pharmacy emphasizes the importance of effective curriculum planning and delivery. The College follows a transparent approach that includes various components. The Academic Calendar provided by the Head of J.K.K.Nattraja Educational Institutions is strictly adhered to. Department heads conduct meetings to distribute workload, assign subjects, plan departmental activities and review syllabi. Continuous internal assessments are conducted to identify knowledge gaps and provide remedial coaching to students. Advanced learners are encouraged to participate in co-curricular activities and career-oriented programs. Program Committees are constituted to ensure effective curriculum planning and delivery. Teaching plans and content are prepared by faculty members, who also utilize various teaching aids and methods. Practical plans are uploaded, and students maintain certified practical record notebooks. Faculty members are supported through orientation and refresher courses.

J.K.K.Nattraja College of Pharmacy has taken significant steps to integrate cross cutting issues into the curriculum. To foster environmental sustainability, they uphold green practices on campus and integrate environmental science into the curriculum as per the guidelines set by the Pharmacy Council of India. Human values are taught through moral classes and invited talks on gender equality and social commitment. Health-related issues and prevention are addressed through field visits and medical camps. Professional ethics are emphasized through specific courses and practical experiences. The curriculum integrates these issues while following the syllabus prescribed by the Pharmacy Council of India.

Teaching-learning and Evaluation

J.K.K.Nattraja College of Pharmacy champions diversity, welcoming students from varied backgrounds, especially those from rural areas, aiming to provide quality education and enrich student learning outcomes. The institution employs diverse teaching methods like experiential learning and problem-solving, aided by ICT tools, to offer engaging and interactive learning experiences. Maintaining a strong focus on teacher quality, it ensures transparent assessment processes, incorporating continuous and internal assessments with various

methods such as class tests and presentations. Additionally, the college implements measures like mobile jammers and CCTV cameras to uphold exam discipline.

A responsive grievance redressal system addresses concerns promptly, emphasizing timely resolutions. Evaluation of Programme and Course Outcomes through internal and university exams helps gauge student progress and aligns with the institution's vision and mission, effectively communicated to stakeholders.

Furthermore, J.K.K.Nattraja College of Pharmacy fosters innovation and entrepreneurship through its Innovation Council, promoting a culture of innovation, facilitating collaborations, and organizing workshops and competitions. Innovation Ambassadors drive this culture, guiding students and faculty in creativity, business development, and technology commercialization. Notably, the institution excels in innovation competitions like the Smart India Hackathon, earning recognition and grants.

In addition to innovation, the college actively engages in extension activities promoting social awareness and holistic development. Through voluntary participation in community-based practices, students and staff contribute to initiatives ranging from health camps to environmental conservation efforts, instilling social responsibility and fostering community service.

J.K.K.Nattraja College of Pharmacy creates an environment conducive to innovation, entrepreneurship, and social engagement, empowering students to make impactful contributions to society while ensuring a quality educational experience.

Research, Innovations and Extension

J.K.K. Nattraja College of Pharmacy excels in Resource Mobilization for Research, demonstrating exceptional resilience in advancing knowledge despite limited external funding. Over the past five years, our institution secured approximately 63,500 INR through consultancy projects, showcasing our innovative approach to research funding.

At our core lies a profound recognition of knowledge as the driver of progress. We've cultivated a dynamic Innovation Ecosystem evident in our meticulously designed curriculum and tangible contributions to academia and industry. Our distinguished research community, with six patents filed and 65 publications, reflects our commitment to knowledge advancement.

To bridge academia and real-world applications, we founded the Institution Innovation Cell, facilitating the transformation of innovative concepts into viable products and businesses. We actively participate in IP literacy programs like 'KAPILA,' achieving notable success with six patents filed.

Our commitment extends to establishing a newly registered incubation center nurturing forthcoming research initiatives. As members of the Institution Innovation Council, we've organized 63 seminars and workshops, ensuring our students remain at the forefront of evolving trends in the Pharmaceutical Industry.

In Research Publication and Awards, we've published 92 journals, with 60 articles indexed in Scopus, 5 in Web of Science, and 27 in Google Scholar indexed journals. Our commitment to dissemination is further underscored by the publication of five books and consistent research output over the years.

Our outreach and community engagement initiatives, including our NSS unit and participation in Unnat Bharat

Abiyan, reflect our commitment to societal well-being. We've conducted 112 extension and outreach programs through NSS activities, addressing health awareness, cleanliness drives, and educational programs.

Through 15 Memoranda of Understanding, we've forged strategic partnerships with hospitals, industries, and community pharmacies, enriching our curriculum and empowering our graduates to make meaningful contributions to the healthcare and pharmaceutical sectors.

J.K.K. Nattraja College of Pharmacy stands as a beacon of Research, Innovation, and Community Engagement. With a track record of achievements and a vibrant culture of collaboration, we remain steadfast in advancing knowledge and serving the needs of our local community and society at large.

Infrastructure and Learning Resources

The J.K.K.Nattraja College of Pharmacy, situated within the J.K.K.Nattraja Campus, offers a comprehensive learning environment for pharmacy students. Spanning across 3.49 acres with a built-up area of 10542.2 sqm, the institution adheres to AICTE and PCI norms, boasting 16 spacious and well-ventilated lecture halls. These halls are equipped with modern ICT facilities alongside traditional teaching methods, ensuring an enriched learning experience.

With 20 fully-equipped laboratories catering to a batch size of 25 students, the college provides essential amenities such as electricity, gas, fume cupboards, and first aid kits. Safety protocols are strictly followed, including the provision of aprons to students. Additionally, there's a CPSCEA approved animal house and a closed auditorium accommodating 500 students for various functions.

To counter power outages, the college maintains two generators with capacities of 72.2 kV and 25 kV respectively. Indoor sports facilities, yoga, and a gymnasium promote physical well-being among students, complementing their academic pursuits.

The institution emphasizes quality learning resources, offering both hard and soft copies to users. The digitized library, managed through the Integrated Library Management System (ILMS) KOHA, houses a vast array of resources including e-books, journals, magazines, and newspapers. With subscriptions to numerous national and international e-resources, the library facilitates comprehensive research endeavors. An investment of twenty-five lakhs over the past five years underscores the institution's commitment to library upgradation.

State-of-the-art IT facilities, including 156 computers with exclusive access for students, staff, and administrative purposes, ensure seamless connectivity. The campus is Wi-Fi enabled with a bandwidth of 500 mbps, facilitating efficient internet access for all stakeholders.

In conclusion, the J.K.K.Nattraja College of Pharmacy provides a holistic learning environment that prioritizes both academic excellence and extracurricular engagement. With modern infrastructure, well-equipped laboratories, and extensive library resources, the institution remains dedicated to nurturing the intellectual and personal growth of its students.

Student Support and Progression

The J.K.K.Nattraja College of Pharmacy has a registered Alumni Association called J.K.K. Nattraja College of

Pharmacy Alumni Association, Kumarapalayam, which plays a significant role in the institution's development. The Alumni Committee is actively engaged in maintaining alumni relations and organizing an annual alumni meet. They also maintain an alumni database and seek feedback from alumni regarding the college's infrastructure and teaching-learning process. With over 900 alumni serving in distinguished positions globally, the alumni association serves as torchbearers for the college's vision and mission. These alumni work in various sectors, such as production, quality assurance, research, marketing, and academics, and they share their experiences to provide placement opportunities for students. The alumni have been instrumental in exchanging ideas and motivating students to choose the right career path. The Alumni Committee's key objectives include maintaining a close relationship with alumni, updating them on college developments, providing a platform for alumni to connect and share their experiences, and fostering a strong relationship between alumni and current students. The J.K.K. Nattraja College of Pharmacy Alumni Association, Kumarapalayam is registered under the Tamil Nadu Society Registration Act 1975 and is located at J.K.K.Nattraja Educational Institutions in Kumarapalayam, Tamil Nadu.

Governance, Leadership and Management

J.K.K.Nattraja College of Pharmacy embodies a clear institutional vision and leadership ethos, aligning seamlessly with its mission and reflected in its operational framework. Positioned as a global innovative solutions provider, the institution strives for excellence across diverse domains while upholding core values such as academic integrity, accountability, and global awareness.

Central to its governance model is decentralization and active participation, fostering a culture of distributed leadership and shared responsibility. Through the formation of committees and activity clubs, the college empowers staff members to take on leadership roles, ensuring a collaborative approach to program execution. Teachers, students, and alumni play pivotal roles in decision-making bodies, reinforcing a commitment to academic excellence and inclusive governance.

Strategic planning is a cornerstone of the institution's roadmap, meticulously crafted through SWOC analysis and faculty involvement. Developed with specific methodologies and financial considerations, the strategic plan undergoes rigorous review and approval by the Governing Council. The Internal Quality Assurance Cell (IQAC) oversees its implementation, employing outcome measures and regular assessments to gauge effectiveness.

Faculty empowerment takes precedence through welfare measures and a robust performance appraisal system encompassing job descriptions, evaluation mechanisms, and feedback channels. This comprehensive approach aims to nurture a conducive work environment and promote staff well-being.

Financial management and resource mobilization strategies ensure transparency and accountability through internal and external audits. An Internal Audit Department monitors financial transactions, supported by an Audit Committee and external auditors to ensure regulatory compliance.

Moreover, the establishment of an Internal Quality Assurance Cell (IQAC) institutionalizes quality assurance processes, fostering continuous improvement across teaching, research, and operational domains. Regular reviews of teaching methodologies, operational structures, and learning outcomes contribute to enhancing overall quality standards.

In essence, J.K.K.Nattraja College of Pharmacy exemplifies a steadfast commitment to its institutional vision,

underscored by effective governance, strategic planning, faculty empowerment, financial prudence, and internal quality assurance mechanisms. Through these pillars, the institution continually strives to uphold excellence and innovation in all endeavors.

Institutional Values and Best Practices

J.K.K. Nattraja College of Pharmacy stands as a bastion of gender inclusivity and safety, fostering an environment where all members feel valued and protected. Through a multifaceted approach, the college ensures gender equity by integrating equality principles into both academic and extracurricular realms. Equal opportunities in recruitment and promotion, along with diverse student enrollments, underscore their commitment to inclusivity. Moreover, robust security measures, separate hostels, CCTV surveillance, and comprehensive healthcare facilities prioritize the safety and well-being of every individual on campus, reflecting the institution's unwavering dedication to creating a nurturing environment for all.

Environmental sustainability is another cornerstone of the college's ethos, with initiatives aimed at minimizing waste and conserving resources. By adhering to a waste management policy based on the principles of Reduce, Reuse, and Recycle, the college converts biodegradable waste into organic manure through vermicomposting and ensures proper collection and recycling of non-biodegradable waste. The campus's plastic-free status, coupled with water conservation efforts and green campus promotion, reflects their commitment to environmental stewardship.

Inclusiveness and sensitization are further emphasized through celebrations of national festivals and activities promoting tolerance and harmony among students from diverse backgrounds. Mandatory education on the Constitution of India and patriotic events like Republic Day and Independence Day celebrations instill a sense of responsibility and national pride among students, fostering a culture of unity and respect.

The college's commitment to innovation and empowerment is evident in initiatives like "Enhancing Accessibility to Technology for Rural Students," which bridges the digital divide in rural areas, and "Empowering Students Through Experiential Learning," which cultivates practical competence and interdisciplinary collaboration. These initiatives, backed by regulatory endorsements and student achievements, not only enhance academic experiences but also contribute to societal well-being by addressing real-world challenges and nurturing entrepreneurial mindsets.

With an Innovation Incubation Center and an active Institution's Innovation Council (IIC), the college fosters creativity and entrepreneurship, evident in its impressive ratings and student achievements. Participating in various competitions and programs, including StartupTN and Sustainable Development Goals Hackathon, showcases their commitment to innovation-driven positive change.

Institutional preparedness for NEP

1. Multidisciplinary/interdisciplinary:	Collaboration for Multidisciplinary Research: In accordance with the NEP, the institution has established multidisciplinary/interdisciplinary research by establishing the Centers of Excellence within sister institutions. This move aims to further strengthen departmental collaboration and build upon the ongoing inter/multidisciplinary endeavors. Leveraging its strong association with the sister institution, the institution is poised to engage in comprehensive multidisciplinary and interdisciplinary research initiatives. This collaborative foundation paves the way for achieving autonomous status. Autonomy and CBCS Implementation: Upon attaining autonomous status,

	the institution has strategic plans to introduce programs under the Choice Based Credit System (CBCS) for Pharm D. This shift enables student-centered education and facilitates research-oriented learning. Value added programs and Community Involvement: The institution envisions offering innovative add on programs that encourage students to participate in community-driven projects aligned with societal needs, environmental awareness, and value addition. These initiatives will be credited to foster well-rounded development. Holistic and Multidisciplinary Learning: Moving beyond a singular focus on Pharmacy, the institution is dedicated to an educational paradigm that integrates diverse disciplines. The curriculum design will embody the spirit of the National Education Policy (NEP), blending spirituality, science, arts, and humanities. Fostering 21st Century Skills: The institution is committed to equipping students with essential 21st-century skills, encompassing both academic and non-academic spheres. 21st-century skills are essential for students to thrive in today's world. These skills go beyond academics and include: Critical Thinking, Creativity, Digital Literacy, ICT tools, Information and Media Literacy, Global Awareness, Adaptability, Social and Emotional Skills, Problem Identification. These skills are integrated into education through practical learning methods, preparing students for success in a rapidly changing world. Trainer Empowerment: The institution's commitment to 21st-century skills extends to the training of educators. It not only follows but also extends efforts to enhance trainer capacity in relearning these essential skills, ensuring effective knowledge dissemination. Outreach and Societal Contribution: Recognizing the imperative of the hour, the institution plans to implement outreach and extension programs that address societal needs. These efforts encompass enhancing standards, promoting gender equality, and contributing to sustainable economic growth in the healthcare industry and the nation at large, all rooted in socio-ethical values.
2. Academic bank of credits (ABC):	Facilitating Credit Transfer: The institution actively encourages the seamless transfer of credits in undergraduate (UG) and postgraduate (PG) programs through a structured process as per the affiliated

	University regulations. This process allows students to transfer credits earned from one institution to another within the university's network, ensuring a flexible and student-centric approach to education. Fostering Collaboration Between Industry and Academia: The central goal is to strengthen the bond between academia and industry, achieved through empowering faculty to incorporate real-world viewpoints, matching student skills with industry needs, and promoting the comprehensive advancement of all involved parties. Autonomous Status and NEP Implementation: Once granted autonomy, the institution will seamlessly align its credit system with the guidelines of NEP 2020. This strategic move embraces the philosophy of multiple entries and exits for students, enhancing the flexibility and individualized nature of learning paths. Empowered Faculty with Assessment Focus: Faculty members will be galvanized to adopt formative and summative assessment practices aligned with high-order thinking skills. This proactive approach will enhance evaluation methods, ensuring a more comprehensive understanding of students' capabilities.
3. Skill development:	The institution prioritizes the development of crucial skills and values through a diverse array of programs. These encompass fostering abilities in public speaking, critical thinking, leadership, orientation, interpersonal skills, empathy, and emotional intelligence. An Incubation Center called Nattraja Launch Pad for Bioconvergence of Innovation has been established to bolster innovation and entrepreneurial endeavors. The institution acknowledges its inherent duty to instill human values in students, who embody the nation's future. To this end, it arranges programs such as Social Justice Day, World Human Rights Day, National Unity Day, National Constitution Day, and other significant national observances. These initiatives aim to imbue stakeholders with a profound understanding of responsibilities, duties, and rights. Life skills are systematically conveyed to students through interactive sessions, classes, and practical action plans. The institution employs workshops, training sessions, debates, discussions, and comprehensive skill development to equip students for an advanced and progressive future. In alignment

	with its mission, the institution actively fosters collaboration between industry and academia to enhance student training and placement. By establishing strategic Centers of Excellence in collaboration with sister institutions, students achieve academic excellence that aligns with industrial standards. This approach aids in nurturing and grooming professionals ready for the future, capable of analyzing situations from multiple angles and addressing the core of any challenge. These individuals will possess the ability to think critically, solve problems creatively, and articulate their ideas effectively. Tailored for faculty members, the institution offers need-based Faculty Development Programs (FDPs). These programs focus on equipping in-service faculty with essential skills in key areas, including active learning, differentiated instruction, alternative assessment, instructional design, outcome-based education, and hybrid modes of teaching.
4. Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course):	Integrating Indian Heritage: J.K.K.Nattraja College of Pharmacy is dedicated to conserving and celebrating India's rich cultural diversity. Appropriately weaving Indian Knowledge Systems into Add on courses entails not just imparting content in Indian languages but also immersing students in cultural contexts, historical backgrounds, and real-world applications. This comprehensive approach creates a holistic learning experience. Language and Cultural Class: Providing literature classes in Hindi, allowing students to delve into classical texts and explore linguistic nuances in their original form. Cultural Enrichment through Add-On Programs: Engaging in cultural studies add-on programs can lead to a diverse array of positive outcomes for students. These programs are centered around exploring cultural diversity, heritage, and various societal facets. Celebration of Cultural Days: Events like Onam and Pongal form part of the various cultural day celebrations. These occasions provide insights into India's rich cultural history, encompassing traditional dance, music, painting, and sculpture. Through analysis, students gain an understanding of how these expressions mirror the ethos and beliefs of distinct regions. Traditional Healing Practices and Holistic Health: Designing supplementary courses that delve into Ayurveda,

	Yoga, and other traditional Indian health practices. These courses focus on tracing their historical origins, philosophical foundations, and practical applications. Additionally, yoga classes are conducted to benefit students. Indian Philosophy and Ethics: Introducing courses in Ethics and Social Responsibility that encompass a wide range of philosophical schools of thought and ethical principles. These courses explore how these concepts apply within contemporary contexts. Exploring Culinary Traditions: Marking occasions like World Food Day, students delve into India's diverse culinary traditions. This involves highlighting regional specialties, tracing historical influences, and spotlighting the use of indigenous ingredients. Environmental Sustainability: Crafting modules that delve into references to environmental sustainability and ecological balance within ancient Indian texts. These modules establish connections between these teachings and modern-day environmental concerns. Delving into Epics and Mythology: Hosting cultural events focused on Indian epics such as the Ramayana and Mahabharata. These events delve into the moral complexities, characters, and the significant role these epics play in shaping cultural values. Personality and Character Development: Upon admission, every student is required to enroll in one of the personality and character development programs (NSS/YRC/RRC/YUVA). They will engage in approximately 80 hours of training and participate in a seven-day camp. The training encompasses sessions on hygiene, health awareness, and essential first-aid training. National Service Scheme (NSS) activities will involve social service engagements within and around the College. Similarly, Youth Red Cross (YRC) will focus on social service initiatives in the College's vicinity. While training activities usually take place on weekends, camp activities are scheduled during vacation periods.
5. Focus on Outcome based education (OBE):	J.K.K.Nattraja College of Pharmacy has embraced Outcome-Based Education (OBE) since 2022, a philosophy that evaluates student achievements in terms of Course Outcomes (COs), Program Outcomes (POs), and Programme Educational Objectives (PEOs). This approach emphasizes transparent assessment shared with stakeholders,

fostering institutional and individual improvement. Guided by Bloom's Taxonomy, the institution prioritizes enhancing higher-order cognitive skills. Question Banks are meticulously crafted to provoke critical thinking, fostering an environment conducive to advanced cognitive development. Additionally, the institution's commitment to holistic education extends to empowering students with life skills through outreach extension programs, enabling them to thrive in diverse contexts. Quality education is paramount, evidenced by the institution's strong emphasis on defining, communicating, and evaluating POs and COs for all academic programs. POs embody overarching learning objectives, reflecting the institution's vision and dynamically responding to societal and industry needs. COs, meanwhile, delineate specific, measurable objectives for individual courses, ensuring incremental competency acquisition towards POs. Effective communication of learning outcomes begins with students' induction programs, providing an overview of POs. Teaching plans and strategies are meticulously designed to facilitate CO achievement. Faculty training before each academic year ensures alignment between teaching methods and outcomes. Participation in Faculty Development Programs further enhances faculty expertise in outcome-based education principles and practices. Evaluation of POs and COs employs a multifaceted approach, encompassing various academic activities such as assignments, examinations, practical performances, and internships. Evaluation reports from internship agencies supplement this assessment. Data collected forms the basis for evidence-based decision-making, facilitating program refinement and alignment with evolving academic and professional demands. Adherence to accreditation standards, such as those set by the National Assessment and Accreditation Council (NAAC), underscores the institution's commitment to quality education. Incorporating POs and COs into institutional practices ensures continuous improvement, enhancing educational experiences for students. J.K.K.Nattraja College of Pharmacy's adoption of Outcome-Based Education reflects its dedication to transparent assessment, holistic development, and continuous improvement. By prioritizing cognitive skills enhancement, life skills empowerment, and rigorous evaluation

	practices, the institution remains steadfast in its commitment to quality education and responsiveness to evolving educational and professional landscapes.
6. Distance education/online education:	Distance and Online Learning: In tandem with NEP principles, J.K.K.Nattraja College of Pharmacy is prepared to offer in the future PG Diploma and Certificate Courses in advanced science, Communication and Soft Skills, and Yoga through distance and online education platforms. This initiative aligns with the NEP's vision of expanding education accessibility.

Institutional Initiatives for Electoral Literacy

1. Whether Electoral Literacy Club (ELC) has been set up in the College?	YES The college operates a fully functional Electoral Literacy Club (ELC) aimed at educating students about the electoral process. This club actively participates in activities such as facilitating, monitoring, and guaranteeing students' comprehension of election procedures within the campus. Additionally, it fosters an understanding of the students' role and representation as youth in the nation-building process. The club takes the lead in disseminating information regarding citizenship, the electoral roll, the significance of active participation, the duties of a responsible citizen, the right to vote, and the responsibilities associated with being a voter.
2. Whether students’ co-ordinator and co-ordinating faculty members are appointed by the College and whether the ELCs are functional? Whether the ELCs are representative in character?	YES Both faculty coordinators and student coordinators play an integral role in actively engaging with the electoral process. They conduct informative campaigns that explain the procedures, methods, and the roles of elected student representatives from every class, as well as the union members chosen through collective elections, all of which adhere to the university's established guidelines. The selection procedure is primarily rooted in the principle of representation through elections, ensuring the involvement of every student in the college.
3. What innovative programmes and initiatives undertaken by the ELCs? These may include voluntary contribution by the students in electoral processes-participation in voter registration of	The ELC has undertaken a range of activities to achieve its objectives, some of which include: 1. Voter Registration Drives: The club organised voter registration drives on campus, encouraging students

students and communities where they come from, assisting district election administration in conduct of poll, voter awareness campaigns, promotion of ethical voting, enhancing participation of the under privileged sections of society especially transgender, commercial sex workers, disabled persons, senior citizens, etc.	to enrol as voters and providing guidance on the registration process. 2. Awareness Campaigns: Several awareness campaigns were conducted before local, state, and national elections to emphasise the importance of voting and informed decision-making. 3. Workshops and Seminars: ELC conducted workshops and seminars on topics such as the Indian electoral system, the role of voters, and the significance of voting. Eminent speakers from the field were invited to enlighten students. 4. Mock Elections: Mock elections were organised to simulate the voting experience for students, helping them understand the process better. 5. Community Outreach: The club extended its activities to the local community by organizing events in nearby villages and conducting voter awareness programs. 6. Actively engagement of students: College students actively engage in volunteer services during the election period, contributing their efforts to streamline and expedite the polling process. Their goal is to ensure the seamless inclusion of all citizens in the election proceedings.
4. Any socially relevant projects/initiatives taken by College in electoral related issues especially research projects, surveys, awareness drives, creating content, publications highlighting their contribution to advancing democratic values and participation in electoral processes, etc.	The college is affiliated with public-interest programs that focus on educating, deliberating, and promoting electoral ethics and democratic principles. These programs also encourage students to actively participate in the electoral process.
5. Extent of students above 18 years who are yet to be enrolled as voters in the electoral roll and efforts by ELCs as well as efforts by the College to institutionalize mechanisms to register eligible students as voters.	Internal awareness campaigns are organized to encourage eligible students to register as voters. The students are registered on the electoral list and possess valid ID cards. Students under the age of 18 are predominantly found in the first-year undergraduate classes. The Electoral Literacy Club takes measures to engage these students in programs aimed at educating them about electoral rolls. In 2022, the college also conducted the electoral roll registration specifically for first-time voters.

4. Quality Indicator Framework(QIF)

Criterion 1 - Curricular Aspects

1.1 Curricular Planning and Implementation

1.1.1

The Institution ensures effective curriculum planning and delivery through a well-planned and documented process including Academic calendar and conduct of continuous internal Assessment

Response:

J.K.K.Nattraja College of Pharmacy places great emphasis on effective curriculum planning and delivery, which is reflected in our well-planned and documented process. We follow a transparent approach to curriculum delivery, which includes the following components:

Academic Calendar: We strictly adhere to the Academic Calendar provided by the Head of J.K.K.Nattraja Educational Institutions. The department heads conduct meetings to distribute workload, assign subjects, plan departmental activities and review the completed syllabus.

Program Committees: B.Pharm/M.Pharm/Pharm.D Program Committees are constituted by the college to ensure effective curriculum planning and delivery. Timetables are prepared after discussion with the respective departments and are displayed on the notice board and college website. Additionally, students are provided with a link to the syllabus of the university.

Continuous Internal Assessment: We conduct continuous internal assessments to identify gaps in students' knowledge and provide remedial coaching to slow learners after the completion of each sessional examination. Advanced learners are encouraged for further progression in their careers by participating in various co-curricular activities and career-oriented programs organized by the college and outside the college.

Teaching Content and Teaching Plan: Our faculty members prepare the teaching plan at the beginning of each academic year after preparing the teaching content. Teaching plans are uploaded in CAMU, and faculty members record the conduct of teaching and practical's in CAMU. The IQAC conducts periodic assessments of curriculum delivery through HODs.

Laboratories: Practical plans for each course are uploaded in CAMU, and faculty members record the conduct of practicals. The students maintain the practical record notebook, which is certified by the faculty and HOD.

Teaching Aids: To ensure effective delivery of the curriculum, our faculty uses teaching aids such as charts, maps, models, and specimens along with PowerPoint presentations, chalk, and board. Teaching methods such as seminars, group discussions, quizzes, and case studies are also used. Study materials and question banks are provided in class and through mails. Group projects are assigned to teach students team spirit, sharing, presentation skills, and research skills. Social sites such as YouTube and WhatsApp are used for effective teaching, and ICT-based materials are uploaded to the college website. Guest and expert lectures and guidance by various expertise from national and international institutions, pharma

companies and alumni are engaged. Internet, computer, LCD projectors, and other audio-visual aids are also utilized.

Teacher Support: J.K.K.Nattraja College of Pharmacy encourages faculty to participate in orientation and refresher courses to update their knowledge of the subject. The college provides orientation to new recruits on teaching methodologies.

Measuring Achievements: The college measures the achievements of the syllabus objectives through students' performance in internal tests, group discussions, presentations, and university examinations.

1.3 Curriculum Enrichment

1.3.1

Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability in transacting the Curriculum

Response:

The institution's mission is to educate qualified pharmacy professionals who will support society's moral and ethical principles while improving the health and wellbeing of individuals. According to NAAC criteria 1.3.1, the Institute has implemented a number of curricular and extracurricular activities that have the potential to address cross-cutting issues related to professional ethics, gender, human values, the environment, and sustainability.

Professional Ethics and Human Values:

The curriculum includes courses viz., hospital and clinical pharmacy, quality assurance, pharmacy practice, social pharmacy and preventive pharmacy, all of which raise understanding of the profession's professional, ethical, and social standards. Professional ethics are included in courses on Drug Regulatory Affairs (M. Pharmacy), Pharmaceutical Regulatory Sciences (B. Pharmacy), and Pharmaceutical Jurisprudence (Pharm D and B. Pharmacy). The institution regularly engages in socially important research projects and service-oriented activities that foster the development of moral principles and human values. Research & Biostatistics methodology courses are covered in both UG and PG programs. Pharm. D. students participate in project work, clerkships, internships, and public health care activities as required by the curriculum. The interaction between students and teachers in the B.Pharm and M.Pharm curricula also aids in introducing students to topical concerns regarding ethics and human

values. First-year students are continuously exposed to a values- and ethics-related induction program in the institution. In order to cultivate the students' human values and ethical insights, the institute has been holding National Pharmacy Week festivities as well as World Pharmacist Day celebrations. Additionally, students take part in a variety of NSS projects that combine human values, such as health awareness campaigns, medical clinics, blood donation campaigns, and events in adopted villages.

Environment and Sustainability:

The program includes a required course in environmental science. NSS host a variety of environmental programs and the students take part in numerous environmental conservation efforts like Swatch Bharat, green campus programs, and plantation drives. Additionally, our institute keeps a medicinal plant garden on the site containing uncommon plant species. Campus vegetation reflects a healthy ecology.

Impact:

1. Students are able to demonstrate moral behavior in their professional lives by abstaining from unethical activity and showing empathy in their social relationships.
2. Gender equity among students was encouraged through the student activity council's equal representation of both sexes.
3. A campus that embraces diversity and has outgoing, morally upright students.
4. Through planting efforts and environmental preservation, students are putting their green initiatives into practice.

2.2 Student Teacher Ratio

2.2.1

Student – Full time Teacher Ratio
(Data for the latest completed academic year)

Response: 16.9

2.3 Teaching- Learning Process

2.3.1

Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences and teachers use ICT- enabled tools including online resources for effective teaching and learning process

Response:

J.K.K.Nattraja College of Pharmacy has adopted a multifaceted approach to teaching, focusing on enhancing student learning experiences through various methods tailored to their needs. These methods encompass group discussions, poster presentations, and mind mapping, complemented by Continuous Assessment techniques like quizzes, assignments, and presentations.

Experiential Learning forms a core part of the institution's strategy, providing students with hands-on experiences through field visits (Industrial and Hospital visits) and practical-oriented teaching. For instance, visits to herbal gardens expose students to medicinal species, while 3D molecular models aid in understanding pharmaceutical chemistry concepts.

Participatory Learning is integrated into teaching methodologies, engaging students through seminars, assignments, online quizzes, and interactive games such as crossword puzzles. Students collaborate on poster presentations and participate in the conferences to broaden their knowledge.

Problem-Solving Methodologies challenge students to tackle industry or clinical-related tasks and analyze real case studies, fostering critical thinking and analytical skills.

Self-directed Learning is promoted through micro-presentations, flipped classroom approaches, library e resources such as Micromedex, Delnet, e- consortium (The Tami Nadu Dr. M.G.R Medical University) and empowering students to take charge of their learning. They also contribute to the preparation of an E-newsletter, enhancing their research and communication skills.

Project-Based Learning offers opportunities for practical application of knowledge, with postgraduate students undertaking mini-projects and both undergraduate and postgraduate students engaging in final-year projects.

Role Play simulates real clinical scenarios for prescription handling and counselling, while a dedicated Model Pharmacy trains (Janaushadhi- PMBJP a Govt. Community Pharmacy) students in practical pharmacy operations.

Pharm D students adopt a patient-centred approach to practice and learning, performing tasks like medication reconciliation and counselling, supported by the Drug Information Centre. Hospital Pharmacy postings provide hands-on experience in real-world pharmacy settings.

Continuing Pharmacy Education and clinical meetings ensure ongoing professional development, equipping students with the skills needed for career advancement.

Incorporating ICT-enabled tools enhances teaching effectiveness, with smart TV/LCD projectors in classrooms and access to computers and the internet for faculty members. Animated YouTube videos, simulation software, and e-resources supplement traditional teaching methods, bridging theory and practical and keeping students abreast of industry advancements.

Overall, J.K.K.Nattraja College of Pharmacy's diverse teaching methodologies and technological integration ensure high-quality education that fosters critical thinking, creativity, and practical skills, preparing students for success in their academic journey and future careers.

2.5 Evaluation Process and Reforms

2.5.1

Mechanism of internal/ external assessment is transparent and the grievance redressal system is time- bound and efficient

Response:

The Internal Assessment (IA) process at the Tamil Nadu Dr. M.G.R. Medical University is meticulously designed to ensure fairness, transparency, and accountability in evaluating students' performance. It comprises two modes: Continuous assessment and Sessional Exams, both of which contribute to the internal marks recorded on the university's web portal. The examination committee provides tentative exam dates well in advance, facilitating students' preparation and adherence to study schedules.

Continuous assessment involves various methods such as Quiz, class tests, surprise tests, open book tests, presentations, group discussions, assignments, and tasks beyond the syllabus. These methods are aimed at facilitating regular revision of the course content and ensuring students' comprehensive understanding. Sessional examinations specify theory and practical exam model along with mark distribution in examination manuals, to maintain consistency and transparency in assessment. Quality assurance measures, including the designation of the head of department (HOD) or senior faculty member as a Vetter to evaluate question paper quality, are implemented to uphold standards.

Practical aspects such as attendance, attitude, viva, and record keeping have been given due importance alongside three sessional practical exams for PharmD and 2 sessional practical exams for B.Pharm and M.Pharm for semester pattern. Marks obtained from these assessments are solely considered for uploading on the university's web portal. This ensures a comprehensive evaluation of students' performance.

Transparency and robustness are further ensured through several measures, including adherence to the academic calendar schedule for theory and practical exams, provision for improvement sessional exam within two weeks for valid reasons, random reevaluation of corrected answer booklets by HODs, and a grievance resolution mechanism. Marks achieved in assessments are publicly posted on notice boards,

providing equal opportunities for all students to address any examination-related concerns.

Amid the Covid-19 pandemic, CA and Sessional exams were conducted using online platforms such as Google Classroom, Google Meet, and Google Form, ensuring compliance with set deadlines while maintaining safety measures. Examination committe members scrutinize the entire examination and evaluation process, ensuring its effectiveness and adherence to standards.

The institution follows a transparent and time-bound mechanism to address exam-related grievances. Grievances can be formally submitted to the Examination Committee, with sensitive matters investigated by the Examination Grievance Redressal Committee. Grievance types, including visible, imaginary, expressed, disguised, group, and policy grievances, are handled efficiently through the Examination Grievance Redressal Committee comprising the institution's key personnel.

To minimize grievances, measures such as vetting processes, timely setting and evaluation of question papers, random verification of marks, and display of internal mark reports on notice boards are implemented. Additionally, a program committee addresses grievances related to the Teaching Learning Process (TLP) and the evaluation process, ensuring continuous improvement and alignment with the institution's vision.

Any grievances related to university examinations are reported to the Deputy Controller of Examination to ensure the system's continual improvement. These measures collectively contribute to enhancing the examination and evaluation processes, ultimately aiming to foster students' academic success and overall development.

2.6 Student Performance and Learning Outcomes

2.6.1

Programme Outcomes (POs) and Course Outcomes (COs) for all Programmes offered by the institution are stated and displayed on website

Response:

In our institution, we have formulated accessible statements called Course Outcomes (CO) for Pharmacy students to understand, implement and appreciate by the end of each course. The preparation of CO is tailored to the scope of the specific course to be taught and applied revised Bloom’s taxonomy. We also ensure that the teachers align their CO with the institution's vision and mission statement, which provides them with a clear understanding of the teaching methodology and evaluation process.

We ensure that emphasize every CO aligned with the Programme Outcome (PO) and Programme

Specific Outcome (PSO) to ensure that the specific course objectives are met through evaluation. The Head of Department verifies the structured CO, which is ultimately approved by the Principal.

When preparing CO, we emphasize that the institution has set a benchmark for the attainment of CO in existing programmes. Each CO is linked with PO, and the weightage of CO is linked with Continuous Assessment (CA) and Internal Assessment (IA) exams. We consider all marks (CA, IA, and University) for CO attainment calculations. We have also provided details of the weightage given for Internal and External exam components.

Our CO formulation approach focuses on incremental knowledge and outcome-based student learning. The cumulative COs at the end of the program imply the successful attainment of PO and PSO.

We ensure effective communication of the importance of CO, PO, and PSO to all stakeholders. During the orientation programme, we enlighten students on the significance of CO, PO, and PSO. We communicate this information to all staff and students by displaying it on notice boards and placing it in staff circular files for easy access.

Furthermore, hard copy handouts of syllabus, POs and COs are issued to all departments and are readily available for reference. We consistently emphasize the importance of CO, PO, and institution's vision and mission policies to staff and students during staff meetings, IQAC meetings, circulars, mentor programs, student council meetings, representative meetings, and general body meetings.

This exercise has consistently improved the quality of the system, giving rise to uniqueness, accountability, and improvement with the aim of better Programme attainment.

2.6.2

Attainment of POs and COs are evaluated.

Explain with evidence in a maximum of 500 words

Response:

ATTAINMENT OF COs AND POs

The assessment of course outcomes and program outcomes is a critical aspect of educational evaluation, particularly under the curriculum set forth by The Tamil Nadu Dr. M.G.R. Medical University, Chennai. Two primary categories of assessment tools are utilized: Direct and Indirect.

Attainment of COs

Direct assessment tools focus on evaluating students understanding of fundamental concepts, analytical thinking, planning abilities, and expression of acquired knowledge. Internal assessments involve periodic exams, with four tests for theory and three for practical components in non-semester courses, and two tests for semester examinations. These exams cover all syllabus portions and contribute 20% to the overall assessment. Conversely, university exams assess students grasp of fundamental concepts, planning abilities, and practical skills through descriptive questions. Constituting 80% of the direct assessment, these exams are conducted by the university.

Indirect assessment tools provide additional perspectives on course outcomes. Course-exit surveys measure the quality of courses and their outcomes upon completion of each course.

The attainment of course outcomes is recorded to establish attainment levels, wherein measuring outcomes achieved through university examinations entails setting targets based on the percentage of students exceeding the university average marks (50%) or a predetermined attainment level.

Attainment levels are defined accordingly:

Attainment Level 1 if students exceed 50% of marks, Attainment Level 2 if they exceed 60%, and Attainment Level 3 if they exceed 70%. Actual percentages of students achieving these marks determine attainment.

If targets are met, all course outcomes for the year are considered attained, prompting the setting of higher targets for subsequent years. If targets are not met, action plans are devised to achieve them in subsequent years.

The assessment of course outcomes involve a comprehensive approach encompassing various assessment tools. By aligning assessment practices with curriculum objectives and setting clear attainment targets, educational institutions ensure the holistic development of students and continuous enhancement of teaching and learning processes.

Attainment of POs

Indirect assessment involves student exit surveys (Graduate exit surveys/Program exit surveys) which are conducted at the end of the program to evaluate knowledge gained and its implications for personal and professional growth.

PO Attainment = COA x M/3

where, COA – Course outcome attainment

M – Average mapping

Each course is to be first mapped with their respective POs and finally, the average of each POs is to be calculated. Then 80% of each average PO value is taken as direct attainment and 20% from the student exit survey as indirect attainment for the calculation of program attainment.

3.2 Innovation Ecosystem

3.2.1

Institution has created an ecosystem for innovations, Indian Knowledge System (IKS),including awareness about IPR, establishment of IPR cell, Incubation centre and other initiatives for the creation and transfer of knowledge/technology and the outcomes of the same are evident

Response:

J.K.K. Nattraja College of Pharmacy is deeply committed to being a beacon of scientific innovation and research. Rooted in the conviction that knowledge is the pillar of advancement, our institution has been a fertile ground for cultivating a vibrant ecosystem of innovation, research, and entrepreneurship. With a notable history of 92 publications in respected journals and conferences and a significant contribution of six patents filed for the past five years, we stand at the forefront of academic and industrial progress. This record is not only a reflection of our inventive zeal but also highlights our dedication to societal betterment through pioneering solutions.

Our campus is energized by the Institutions Innovation Cell (IIC201810715), which epitomizes our mission to bridge the academic-industrial divide. This platform fosters a thriving community where emerging entrepreneurs, seasoned industry professionals, and academic researchers collaborate to turn innovative ideas into tangible products and successful ventures.

The spirit of collaboration extends beyond our campus through 15 dynamic Memorandums of Understanding (MoUs) with diverse entities, including state government agencies, leading hospitals, acclaimed educational institutions, industries, and community pharmacies. These strategic partnerships enrich our academic environment, offering our students unparalleled opportunities for hands-on learning and internships.

In alignment with fostering a culture of innovation, we are participants in the KAPILA: Kalam Program for IP Literacy and Awareness. This initiative not only supports our institution financially in the patent filing process but also educates our faculty and students on the nuances of Intellectual Property (IP) rights, enhancing our global and local IP filing expertise. Our commitment to innovation is underscored by our recent academic year's achievement: filing and publishing six patents, thereby illuminating our institution's dynamic spirit of invention.

To bolster our research infrastructure, we have inaugurated an incubation center, officially registered with the Ministry of Corporate Affairs. This center is a cornerstone for nurturing upcoming research projects and initiatives, symbolizing our forward-looking approach to research and development.

Our affiliation with the Institution Innovation Council (IIC), under the Ministry of Education, further cements our role as a leader in innovation and entrepreneurship. Recognized with a prestigious star grade, our institution has orchestrated 63 events, including seminars, workshops, and conferences on Research Methodology, Intellectual Property Rights, and Entrepreneurship. We've also embraced the competitive spirit of Hackathons and idea competitions, in accordance with the Ministry of Education's guidelines. Our students have distinguished themselves, securing numerous awards in state and national innovation contests, reflecting the high caliber of our academic community.

Our dedication to research excellence is unwavering, supported by robust policies that encourage a thriving research culture. Our Institutional Animal Ethics Committee and Institutional Ethical Committee ensure all research meets stringent ethical standards. We celebrate faculty research achievements with incentives and awards and provide seed funding to fuel innovative research endeavors. This comprehensive approach underscores our commitment to nurturing a rich culture of research and innovation, making J.K.K. Nattraja College of Pharmacy a distinguished name in the realms of academia and beyond.

3.4 Extension Activities

3.4.1

Outcomes of Extension activities in the neighborhood community in terms of impact and sensitizing the students to social issues for their holistic development during the last five years.

Response:

J.K.K.Nattraja College of Pharmacy is known for organizing various outreach extension programs to cater the needs of the needy and uplift the deprived residents of the locale. As a Student Centric institution, NSS unit make students originate together and volunteer themselves to work with Governmental and NGOs for overall enhancement of the individual and neighborhood.

NSS Unit of the Institution:

NSS unit of the institution with the registration number Unit I - 032 under J.K.K.Nattraja College of Pharmacy has 5 adopted villages namely Kuppandapalayam, Sowdapuram, Pallakkapalaiyam, Thattankuttai and Elanthankuttai of Namakkal district, Tamil Nadu. NSS volunteers of the institution used to conduct several activities every year with holistic approach to strengthen emotional and social behavior of the students.

Students' Activities under NSS:

01 Awareness Rally Program on Dengue Fever

01 Awareness programs on Diabetes

01 Anti-plastic awareness program

01 Awareness program on Women Child Saving Schemes

01 Awareness rally on common public against intoxicant

01 Survey on cashless transaction, sanitization, economy, health and literacy status

01 Awareness programs on preventive measures to be taken during COVID

01 Awareness on safe usage of medicines and role of pharmacist in public health

01 Nutritional awareness programs to educate the public for being healthy.

01 Awareness program Nutrition and its importance for a healthy life

02 Cleanliness drives at villages

04 Free Health Camp Check and patient counseling

04 Free Dental Camp

01 Free Eye checkup camp

03 Cleanliness of school campus

04 Plantation Program was conducted in adapted villages

04 Awareness on Yoga to school children's

Unnat Bharat Abiyan (UBA): Institution functions UBA (C-45689) programs for the benefit of the students and neighborhood. Institution has received a fund of Rs. 50,000/- to conduct surveys in the villages to meet out the requirements. Students conducted surveys in the adopted villages (Kuppandapalayam, Sowdapuram, Pallakkapalaiyam, Thattankuttai and Elanthankuttai) to revamp the same. The outcome of the survey is that, students got self-motivated and contributed stationery for the school students. Faculty members of the institution have also applied a proposal to conduct an awareness program on Digital Education among village schools.

Green Club: Green Club of the institution creates awareness on the importance of plantation and green concept for the students of the neighborhood.

Impact of the extension activities:

- Village adoption and community services have sensitized the students towards social issues and health-related matters in society.
- Improving the patients health by conducting health camp and provide patient education
- Conducting awareness related to cleanliness and plantation to make the society to be clean and green.
- Institutional involvement in social issues became more visible.
- Build up relations and tie up with organizations/NGOs to carry forward humanitarian work in future.

3.4.2

Awards and recognitions received for extension activities from government / government recognised bodies

Response:

The National Service Scheme (NSS) Unit of J.K.K. Nattraja College of Pharmacy, Kumarapalayam, has distinguished itself through a wide array of initiatives aimed at community welfare, health improvement, and environmental sustainability. This commitment is evidenced by the numerous Certificates of Appreciation the unit has received, each underscoring the college's significant contributions to societal betterment.

Key initiatives include the organization of Voluntary Blood Donation Camps, notably on November 8, 2018, and on subsequent dates, highlighting the Unit's role in critical health care efforts. These camps not only aided in replenishing blood supplies at local hospitals but also fostered a culture of voluntary service among students and the wider community.

The Unit's emphasis on health and wellness is further demonstrated by the regular organization of Yoga Classes, with sessions conducted at Pallakapalayam and various other locations, promoting physical and mental well-being. Similarly, Dental Camps and Health Camps, such as those held in January 2019 and February 2023, respectively, provided essential medical services and awareness on oral health and general health issues to underserved populations.

Environmental stewardship has been another cornerstone of the Unit's activities, with the organization of Plantation Programs and School Campus Hygiene initiatives, aiming to instill a sense of responsibility towards the environment and community cleanliness. These efforts not only beautify and improve the local environment but also teach important values of conservation and cleanliness to students and community members alike.

In addition to health and environmental activities, the Unit has been recognized for its contribution to social causes, including the empowerment of persons with visual challenges during the year 2022-2023. Such recognition not only validates the Unit's impactful work but also highlights the broad spectrum of its engagement with various community needs and challenges.

The Unit's successful organization of awareness programs on nutrition and safe medicine usage represents a proactive approach to addressing community health education, further exemplifying its commitment to public welfare.

Each Certificate of Appreciation received is a testament to the dedication and effort put forth by the NSS Unit and its members. These acknowledgments serve not just as accolades but as a reminder of the positive impact educational institutions can make in their communities. Through these varied initiatives, the J.K.K. Nattraja College of Pharmacy's NSS Unit has not only contributed significantly to the betterment of its local community but has also set a commendable example of how educational institutions can be pivotal in driving societal progress and welfare.

Criterion 4 - Infrastructure and Learning Resources

4.1 Physical Facilities

4.1.1

The Institution has adequate infrastructure and other facilities for,

- **teaching – learning, viz., classrooms, laboratories, computing equipment etc**
- **ICT – enabled facilities such as smart class, LMS etc.**

Facilities for Cultural and sports activities, yoga centre, games (indoor and outdoor), Gymnasium, auditorium etc (Describe the adequacy of facilities in maximum of 500 words.)

Response:

The J.K.K.Nattraja College of Pharmacy, located within the J.K.K.Nattraja Educational Institution Campus, is a well-equipped institution that provides a conducive learning environment for students pursuing pharmacy courses. The College is established in 3.49 Acre land with a built-up area of 10542.2 Sq.m. The building is highly ventilated and spacious complying with AICTE and PCI norms. The college has a total of 16 lecture halls. All the lecture halls are ICT enabled (Smart TV and LCD projector) in addition to the traditional chalk and talk method. Average lecture hall area B.P harm, Pharm D and M. Pharm classrooms are 158 sq.m, 79 sq.m and 77.14 sq.m against AICTE norms of 150 Sq.m and 75 sqm respectively.

There are 20 equipped laboratories for 25 batch size with functional workspaces, amenities like electricity, gas, Fume Cupboards, Exhaust Fans, Fire Extinguishers and First Aid kit. 1 instrumentation room and a machine room to conduct research for students and faculties. In compliance with safety procedures aprons are provided to students. The college has a CPSCEA approved animal house. For conducting functions with all students, there is a closed auditorium with a capacity of 500 students. To ensure uninterrupted classroom instruction during power outages, the college has two generators with capacities of 72.2 kV and 25 kV respectively.

A facility for indoor games, Yoga and Gymnasium available. Infrastructural facilities for sports and games include play fields, courts for Kho-Kho, throw ball, Volleyball, Badminton, Tennikoit, Running, Cricket etc. A gymnasium for physical fitness equipment is available and is being used by students in the off-class hours.

The College has a medicinal garden with an area of 354 Square Metres with 94 plants. Computers, internet, and Wi-Fi are available in all departments, along with separate department libraries containing prescribed textbooks. The institution has 183 computers on the campus out of which 156 are exclusively for the use of students, 20 for staff, and 7 for pharmacy college office use. Frequent updation is done whenever required. The campus is Wi-Fi enabled with 500 Mbps bandwidth. The college frequently updates its IT facilities and ensures sufficient bandwidth for internet connectivity.

Overall, the J.K.K.Nattraja College of Pharmacy within the J.K.K.Nattraja Educational Institution Campus provides students with a well-equipped and conducive learning environment, with a focus on both academic and extracurricular activities. The college's commitment to providing state-of-the-art

facilities for students' learning and development is evident in the infrastructure and resources available.

4.2 Library as a Learning Resource

4.2.1

Library is automated with digital facilities using Integrated Library Management System (ILMS), adequate subscriptions to e-resources and journals are made. The library is optimally used by the faculty and students

Response:

The institution provides Quality learning resources both in hard and soft copies to the users. The library is designed for comfortable study and ventilated for students during long study hours. A Library Advisory Committee is constituted with principal as chairman, vice principal, all HODs and librarian as members. Total area of the library is 193.58 sq.m., with a seating capacity of 100 which is as per AICTE/PCI norms. The college has a digitized library and uses an Integrated Library Management System (ILMS) called KOHA, version 6.1.9. This system allows for efficient management of books, including searching, issuing, and requesting books, as well as generating reports for overdue books. The library contains a variety of resources, including e-books, journals, magazines, and newspapers. Library has 426 National and International E-Journals (Subscribed through Delnet and MGR Medical University E-Consortium 389+37). The library subscribes to 26 National, 9 International print journals. The library has subscription to e-resources MICROMEDEX, DELNET, The Tamil Nadu Dr MGR Medical University e-Consortium. The institution has spent a total amount of twenty-five lakhs including on Printed books (10,71,178/-), print journals (2,60,848/-) and e-resources (11,70,380/-) in the past 5 years for the upgradation of Library.

With 11,910 volumes comprising 4,192 unique titles, we provide a wide array of books. We offer access to 38 journals, 28 national and 10 international. Our digital collection includes 822 E-books and CDs. Additionally, we house 389 project reports, 348 journals, 160 practice school reports, and 367 complimentary materials.

The library is open for all users from 8.30 am to 5.30 pm. The average footfall is 90. Recognizing the significance of technology in education, we offer a dedicated internet facility with a LAN, allowing students to access online resources and conduct research from within the library premises. Additionally, our library area is under 24x7 CCTV surveillance, ensuring a secure and comfortable environment for our library users.

4.3 IT Infrastructure

4.3.1

Institution frequently updates its IT facilities and provides sufficient bandwidth for internet connection

Describe IT facilities including Wi-Fi with date and nature of updation, available internet bandwidth within a maximum of 500 words

Response:

The J.K.K.Nattraja College of Pharmacy, situated within the J.K.K.Nattraja Campus, offers a comprehensive learning environment for pharmacy students. Spanning across 3.49 acres with a built-up

area of 10542.2 sqm, the institution adheres to AICTE and PCI norms, boasting 16 spacious and well-ventilated lecture halls. These halls are equipped with modern ICT facilities alongside traditional teaching methods, ensuring an enriched learning experience.

With 20 fully-equipped laboratories catering to a batch size of 25 students, the college provides essential amenities such as electricity, gas, fume cupboards, and first aid kits. Safety protocols are strictly followed, including the provision of aprons to students. Additionally, there's a CPSCEA approved animal house and a closed auditorium accommodating 500 students for various functions.

To counter power outages, the college maintains two generators with capacities of 72.2 kV and 25 kV respectively. Indoor sports facilities, yoga, and a gymnasium promote physical well-being among students, complementing their academic pursuits.

The institution emphasizes quality learning resources, offering both hard and soft copies to users. The digitized library, managed through the Integrated Library Management System (ILMS) KOHA, houses a vast array of resources including e-books, journals, magazines, and newspapers. With subscriptions to numerous national and international e-resources, the library facilitates comprehensive research endeavors. An investment of twenty-five lakhs over the past five years underscores the institution's commitment to library upgradation.

State-of-the-art IT facilities, including 156 computers with exclusive access for students, staff, and administrative purposes, ensure seamless connectivity. The campus is Wi-Fi enabled with a bandwidth of 500 Mbps, facilitating efficient internet access for all stakeholders.

In conclusion, the J.K.K.Nattraja College of Pharmacy provides a holistic learning environment that prioritizes both academic excellence and extracurricular engagement. With modern infrastructure, well-equipped laboratories, and extensive library resources, the institution remains dedicated to nurturing the intellectual and personal growth of its students.

5.4 Alumni Engagement

5.4.1

There is a registered Alumni Association that contributes significantly to the development of the institution through financial and/or other support services

Response:

The Alumni Committee at J.K.K.Nattraja College of Pharmacy is an active body that maintains the alumni relations and interactions with the Institute. The Alumni Committee takes responsibility to organise a grand alumni meet and maintain an alumni database. The committee is actively involved in strengthening the relationship between alumni and the Institute. In addition, the committee strives to have general feedback on infrastructure of the college and teaching-learning process from alumni. The alumni meet is held in the month of December every year. The committee encourages alumni to speak in a free environment to share their current experiences and past thoughts with regard to academics.

At JKK Nattraja College of Pharmacy, alumni play a significant role as a source of strength. With a database of over 900 alumni serving in distinguished positions both nationally and internationally, they serve as torchbearers for the institution's vision and mission. The college has a registered alumni association called J.K.K.Nattraja College of Pharmacy Alumni Association-Kumarapalayam, which is registered under the Tamil Nadu Society Registration Act 1975, with the registration number SRC/Namakkal/72/2022. These alumni work in various sectors, such as production, quality assurance, quality control, research, regulatory affairs, community pharmacy, clinical data management, marketing, and academics. They focus on current corporate demands/opportunities and sharing their experiences to provide a platform for placement for students. The alumni have played a critical role in exchanging ideas and motivating students to choose the right career path. To this end, the J.K.K.Nattraja campus has hosted various alumni meets where alumni have given valuable suggestions.

The key objectives of the Alumni Committee of J.K.K.Nattraja College of Pharmacy are as follows:

- To maintain a close relation with alumni of J.K.K.Nattraja College of Pharmacy.
- To update the alumni during the alumni, meet with the latest developments and academic achievements of J.K.K.Nattraja College of Pharmacy.
- To make a platform for alumni to get together and share their past evergreen memorable events and life during their study at the Institution.
- To encourage the alumni to get connected with the Institution through official social media of the Institution.

- To maintain an alumni website (powered by Vave) for building and managing the alumni databases and successful reunions.
- To keep a roster of all alumni of the Institution and their pertinent data.
- To open a way for making a strong relationship between the alumni and current students.

Note: The President of the committee conducts a meeting annually before college day celebrations to discuss and assign tasks with regard to alumni meet. The current students are expected to have a professional rapport with the alumni of the Institution.

Criterion 6 - Governance, Leadership and Management

6.1 Institutional Vision and Leadership

6.1.1

The institutional governance and leadership are in accordance with the vision and mission of the Institution and it is visible in various institutional practices such as NEP implementation, sustained institutional growth, decentralization, participation in the institutional governance and in their short term and long term Institutional Perspective Plan.

Response:

J.K.K.Nattraja College of Pharmacy operates in accordance with the regulations and standards set forth by the Statutory Regulatory Authorities, including the Pharmacy Council of India (PCI), All India Council for Technical Education (AICTE), and the institution's Governing Body Council (GBC)."

Governance at J.K.K.Nattraja college of Pharmacy

The Governing Body Council (GBC) of J.K.K.Nattraja College of Pharmacy is an integral component of the institution, established in strict accordance with the guidelines set forth by both the All-India Council for Technical Education (AICTE) and The TamilNadu Dr. M.G.R. Medical University. Comprising a total of seven members, the GBC is led by Chairperson Smt. N. Sendamaraai, with Dr. V. Senthil serving as the Member Secretary. The composition includes two representatives from the Managing Trust, one esteemed educationist from the region, and two members with a background in academics.

The GBC holds a pivotal role within the institution, primarily responsible for formulating policies and serving as the authoritative decision-making body. It plays a crucial role in shaping strategic plans and provides invaluable guidance to the institution's leadership in their execution

Vision: To be a leading global innovative solutions provider for the ever-changing needs of the society.

Mission: To cultivate a dynamic learning environment that fosters innovation, bio convergence, and cutting-edge research in pharmaceutical sciences, equipping Learners with the knowledge and skills to excel as leaders in developing and applying novel drugs and healthcare solutions.

Decentralization and participation in the institutional governance:

The institution embraces a decentralized approach, entrusting faculty members with the authority for efficient planning and the seamless operation of the institution. The Principal, Vice-Principal, and Heads of Departments (HODs) actively oversee the implementation of numerous quality policies.

HODs are granted the authority to design and carry out departmental responsibilities with a high degree of autonomy.

Decentralization Mechanism at J.K.K.Nattraja college of Pharmacy

The institution's carefully made plans fit perfectly with how it's run. These plans are created and carried

out by the Principal and dedicated staff, all working together to achieve the institution's main goals. To encourage excellence, the institution shares its vision, mission, and quality policies with everyone involved, including stakeholders and faculty members. This helps create a strong, united team that values social ethics and human values. As a result, the environment empowers individuals to work together with a strong commitment to achieving the institution's goals.

Impact:

1. Ensured the timely implementation of policies and practices.

2.Achieved effective execution of academic and administrative activities through decentralization.

3. Facilitated systematic and substantial growth potential for the institution."

6.2 Strategy Development and Deployment

6.2.1

The institutional perspective plan is effectively deployed and functioning of the institutional bodies is effective and efficient as visible from policies, administrative setup, appointment, service rules, and procedures, etc

Response:

Institutional Framework:

Within the institution, there exist 38 operational committees, comprising 41 faculty members and 12 non-teaching staff. These committees dutifully align their actions with the policies and guidelines established by both governmental statutory bodies and the institution itself. Regular committee meetings facilitate the execution of activities, which are closely monitored, and feedback is solicited from stakeholders.

Administrative Structure:

A commitment to transparency characterizes the institution's administrative setup, designed to efficiently organize, coordinate, and control activities, all in pursuit of the institution's defined objectives.

Inclusive Management Approach:

The institution embraces a participative management approach that actively involves external stakeholders.

Representation from External and Student Bodies:

External stakeholders are represented through entities such as the Internal Quality Assurance Cell (IQAC), the Institutional Animal Ethics Committee (IAEC), Student Council Committee, Alumni, Employers Professionals and the Anti-Ragging Committee.

Operational Procedures:

The institution diligently adheres to the procedures and policies mandated by The TamilNadu Dr. M.G.R. Medical University and its own management. It remains committed to implementing the guidelines outlined in the "HR Policies and Administrative Practices" book. The institution's leadership ensures policy compliance through a well-structured feedback mechanism.

Long-term Vision: The institution's perspective plans emphasize the delivery of quality education and teaching-learning experiences.

This vision includes:

- Recognizing and rewarding online course certifications.
- Participation in international seminars, conferences, workshops, Faculty Development Programs (FDPs), and Student Internship Programs (SIPS).
- Expanding the array of certificate and add-on courses.
- Enhancing e-resources and IT infrastructure.
- Aligning faculty with Outcome-Based Education (OBE) principles.
- Encouraging faculty to engage in innovations and patent activities.
- Expanding student participation in exchange programs.
- Student Welfare Initiatives:

To support students, the institution identifies and encourages merit-based achievements and offers institutional scholarships.

Collaborative Agreements (MoUs):

The institution seeks to augment opportunities for teaching and non-teaching staff by increasing internships, industrial visits, and training programs. Furthermore, it aims to foster closer ties with industries and promote multidisciplinary research through expanded Memorandums of Understanding (MoUs).

Community Engagement and Outreach:

The institution actively engages with the community through various outreach and extension activities, including awareness programs for school students, medical camps for the public and adopted villages, tree planting initiatives in the vicinity of the college and adopted villages, and initiatives to promote and organize blood donation drives.

Environmental Stewardship:

Conscious of environmental responsibility, the institution conducts awareness sessions on issues such as

plastic usage and drug abuse. It also takes proactive steps through green initiatives and responsible management of water and waste resources.

Impact:

The institution's commitment to sound governance and effective execution of policies through its institutional bodies results in:

- The proper implementation of policies.
- Enhanced clarity and transparency in faculty and non-teaching staff appointments, ensuring alignment with established rules and regulations.
- Effective implementation, monitoring, and assessment of activities by the relevant committees.

6.3 Faculty Empowerment Strategies

6.3.1

The institution has performance appraisal system, effective welfare measures for teaching and non-teaching staff and avenues for career development/progression

Response:

The institution maintains a well-balanced composition of 49 teaching faculty members and 12 non-teaching staff to ensure its efficient operation. Staff welfare measures are incorporated into the institution's "HR Policies and Administrative Practices" outlined in the Statute Book. The institution is committed to offering facilities that enhance the quality of work life and contribute to a higher standard of living for its staff. Faculty members benefit from a comprehensive array of welfare measures provided by the Government, University, and the institution's management.

Academic Welfare Measures:

- Supports staff in upgrading their qualifications, including assistance in completing doctoral degrees.
- Grants academic leave to attend various training programs, faculty development initiatives, seminars, symposiums, conferences, workshops, and pursue higher qualifications.
- Provides facilities to facilitate research activities.
- Reimburses membership fees for professional organizations for faculty members.

Additional Welfare Measures:

- Offers group and individual insurance coverage.

- Provides hostel accommodations for female teaching staff.
- Ensures access to Employee State Insurance (ESI) for both teaching and non-teaching faculty.
- Grants fee concessions for the children of staff members in need.
- Offers medical checkups and free medicines to staff members on campus.

Professional Development Policy for Teaching Faculty:

- Cheers up faculty members for Paper Publications (SCI/SCIE/SCOPUS/High Impact Factor.
- Cash Incentive for Online Certification courses.

Professional Development Policy for Non- Teaching Faculty:

J.K.K.Nattraja college of Pharmacy

- Encourages staff to improve their qualification.
- Encourages non-teaching faculty to attend hands on training program

Institutions Performance Appraisal System for teaching and non-teaching staff:

Performance Appraisal System for Teaching Staff:

The institution employs the appraisal system for assessing the performance of its teaching staff. This evaluation is based on the Academic Performance Index (API) and encompasses the following criteria:

- Teaching-Learning and Evaluation.
- Research Contributions.
- Co-Curricular, Extension, and Professional Development Activities.

Performance Appraisal System for Non -Teaching Staff:

Appraisal of non-teaching staff falls on the

- Enhancing skills and knowledge.
- Effective communication skills.

- Willingness to work additional hours to complete assigned tasks.
- Prompt and positive response to on-the-spot guidelines.

Willing to attend training programs.

The Office of the Principal looks after appraisal for the non – teaching staff. Staff who receive positive feedback will be rewarded and the contrary people will be guided and motivated to work effectively.

Impact:

1. Effective provision for providing welfare measures as per government law and as prescribed by the management.
2. Highly motivated teaching and non – teaching staff enjoying maximum welfare measures and incentives.
3. Impressive faculty retention.

6.4 Financial Management and Resource Mobilization

6.4.1

Institution has strategies for mobilization and optimal utilization of resources and funds from various sources (government/ nongovernment organizations) and it conducts financial audits regularly (internal and external)

Response:

Resource Mobilization is part of the financial management system of the institution. The institution considers resources in a broader perspective and is not limited to fund raising but also to Human resources. The institution is keen to consider all the stakeholders at a key position in resource mobilization.The institution is a self financing college and does not receive any funds from public institutions. The management council is responsible for mobilizing the resources required for the institution.

The systematic guideline to acquiring, and utilization, management, reporting and evaluating the funds received to ensure sufficient resource availability for managing the institution.

The Institution prepares a budget at the beginning of each year stating the financial needs and requirements for its functioning and the budget is approved by the Management council. The major funding sources of the institution includes Financial contribution from Management, Alumni, PTA, sponsorships etc.

Financial audits are scheduled at regular intervals in the institution systematically. Accounts In-charge is responsible for day-to-day financial transactions of the institution and the same details are forwarded to accounts section of J.K.K.Nattraja Educational Institution for further verification. Financial statements are prepared by the institution and submitted after its scrutiny by the foundation's Accounts department.

Internal Audit: Internal process of audit is checked and bill with purchase orders or request slip by Chairman of Finance Committee/AO verifies before it is signed by Head of the Institution. Payments are

facilitated through online transactions/ Cheques, Demand draft.

External Audit: External audit is done quarterly by qualified auditor- Chartered Accountant, appointed by the management. Audited statement of accounts and balance sheet are presented to head office of J.K.K.Nattraja Educational Institutions every year for approval and is also presented to statuary bodies every year. Besides, budget is prepared for the upcoming academic year and is approved by Governing Body Council. Financial delegation of the department is discussed during the department meeting. Budget utilization details are prepared with justification for over or under utilization and is verified before it is signed by Head of the Institution. Payments are facilitated through online transactions/ Cheques, Demand draft. Systematic internal and external audit has created an environment projecting optimal utilization of the resources. Discrepancies if any can be brought out very easily by an effective implementation of the audit system.

Impact:

1.Effective utilization of funds received from GOs and NGOs.

2.Transparency in transactions is ensured at all levels.

3.Scope for mismanagement and misutilization is absent.

6.5 Internal Quality Assurance System

6.5.1

Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes. It reviews teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals and records the incremental improvement in various activities

Response:

The IQAC was established as a framework to cultivate and guarantee a culture of quality within the institution. The IQAC office orchestrates, directs, and upholds both the Quality Assurance (QA) and Quality Enhancement (QE) endeavors of the institution. It holds four meetings per year and is periodically restructured with a specific membership composition.

IQAC Current Members

S.No	Name	Designation	Role in IQAC

1.	Mr. Ommsharravana	Managing Director, J.K.K.Nattraja Institutions	Member of the Management
2.	Dr. V. Senthil	Principal, J.K.K.Nattraja Institutions	Chairperson
3.	Dr.Venkateswaramurthy. N	Professor & Head, Dept., of Pharmacy Practice	Director of IQAC
4.	Dr. Vijayabaskaran Manickam	Professor & Head, Dept., of Pharma., Chemistry	Teacher Member
5.	Mrs. Manodhini Elakya	Associate Professor, Dept., of Pharmaceutics	Teacher Member
6.	Dr. V. Kishor Kumar	Professor & Head, Dept., of Pharmacognosy	Teacher Member
7.	Dr. Rajkapoor	Professor & Head, Dept., of Pharmacology	Teacher Member
8.	Dr. Sekar.V	Professor & Head, Dept., of Pharm., Analysis	Teacher Member
9.	Dr.Arun M.S	Assistant Prof., Dept., of Pharmacy Practice	Teacher Member
10.	Dr. Rajendiran K M	CAO,J.K.K.Nattraja Institutions	Senior Administrative Officer
12.	Mis. J.Shine Angel	Ist Pharm.D	Nominee from the Student
13.	Mis. Anjali Ashok	IIIrd Pharm.D	Nominee from the Student
14.	Mr. Dhanush	IVth Pharm.D	Nominee from the Student
15.	Mr.Venkateswaran	IPA Secretary Bhavani, Kumarapalayam Branch	One Nominee from Local Society
16	Ms.M.P.Pongulale	Assistant Professor, School of Business, VET Institute of Arts and Science College	One Nominee from the Alumni
17	Mrs.Santhi	Associate Manager Quality Validation Biocon Pharma Limited	One Nominee from Industrialist
18	Mr. R.Balamurugan	President CIPMMA Salem.	One Nominee from Stakeholders
19	Mr. Vinoth M	Senior Nutrional Ofiicer, Nestle, India	Employer

Conducive involvement of IQAC is observed in reviewing the teaching-learning process, teaching Pedagogies, monitoring institutional policies, and Student Satisfaction Surveys. Assessing such

parameters aids in sustaining the quality culture of the institution. IQAC motivates the stakeholders at different thrust areas and the incremental improvements observed are,

IQAC recommendation and the incremental improvements:

- Implemented Innovative teaching-learning methods
- Enhanced ICT-enabled classrooms – 16
- Introduced CAMU to support outcome-based education
- Supported the introduction of multiple institutional-level policies including HR policy, Professional body registration policy, solution-oriented entrepreneurship policy, etc.,
- Faculty members adhere to innovative Teaching and Learning Methods.
- Continuous feedback collection and improvement.
- Readiness of course material and semester plan before the commencement of the semester.
- The number of students engaging in add-on programs increased from 505 in 2020-21 to 651 in 2022-23.
- The publications of books or book chapters saw a rise from 1 in 2020-21 to 4 in 2022-23.
- The count of extension activities escalated from 7 in 2020-21 to 41 in 2022-23.
- Memoranda of Understanding grew from 1 in 2021-22 to 8 in 2022-23.
- Scholarships awarded to students increased from 370 in 2020-21 to 553 in 2022-23.

Criterion 7 - Institutional Values and Best Practices

7.1 Institutional Values and Social Responsibilities

7.1.1

Institution has initiated the Gender Audit and measures for the promotion of gender equity during the last five years.

Describe the gender equity & sensitization in curricular and co-curricular activities, facilities for women on campus etc., within 500 words

Response:

J.K.K.Nattraja College of Pharmacy has consistently prioritized the promotion of gender equity, embedding these principles within its educational framework and campus culture over several years. The institution's commitment to fostering an inclusive, safe, and empowering environment for all its members, irrespective of gender, is evident through a comprehensive suite of initiatives aimed at gender sensitization, equity, and empowerment.

Promotion of Gender Equity:

To address and promote gender equity, J.K.K.Nattraja College of Pharmacy has implemented a multifaceted approach that includes:

Establishment of the Women's Development Committee: This committee is crucial in empowering women within the institution, ensuring their voices are heard and their rights are protected.

Internal Complaints Committee (ICC): The ICC diligently works to ensure a safe campus environment, addressing and resolving complaints related to harassment, thereby safeguarding the well-being of all students and staff.

Grievance Committee: This committee deals with issues of bias and discrimination, ensuring that grievances are heard and addressed promptly and effectively.

Equal Opportunities in Employment: The College is committed to providing equal opportunities for women in hiring and promotions; ensuring gender is not a barrier to professional advancement.

Gender-Neutral Enrollment Policies: The college promotes diversity and inclusivity in its academic programs by maintaining gender-neutral enrollment policies.

Encouragement of Women's Participation: Women are encouraged to participate actively in all activities, ensuring their representation and involvement across all domains.

Gender Equity Awareness Programs: Regularly organized programs aim to raise awareness and sensitize the campus community to gender equity issues.

Support for Women in Leadership: The institution actively promotes the inclusion of women in decision-

making roles, recognizing the importance of diverse leadership.

Supportive Extracurricular Activities for Women: Extracurricular activities are designed to be inclusive, offering spaces where women can excel and express themselves freely.

Comprehensive Gender Equity Policy: A clear and robust gender equity policy guides the institution's efforts in creating an inclusive educational environment.

Mentorship for Career Development: Programs are in place to support women's career growth and development, providing guidance and mentorship opportunities.

Safety and Well-being:

Recognizing the paramount importance of safety and well-being, J.K.K.Nattraja College of Pharmacy has established:

Dedicated Facilities and Resources: Including girls' common rooms, separate hostels, and medical facilities to ensure comfort, privacy, and emergency care.

Security Measures: Enhanced security at entrances, CCTV surveillance, and transport facilities contribute to a safe campus environment.

Support Systems: The ICC, Anti-Ragging Committee, and other mechanisms work collectively to prevent harassment and ensure a supportive atmosphere.

In conclusion, J.K.K.Nattraja College of Pharmacy's comprehensive approach to promoting gender equity and celebrating national and international events underscores its commitment to creating a progressive, inclusive, and safe educational environment. Through these initiatives, the institution not only adheres to but also sets high standards for gender sensitivity and equity in higher education.

7.1.4

Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic and Sensitization of students and employees to the constitutional obligations: values, rights, duties and responsibilities of citizens (Within 500 words)

Response:

J.K.K.Nattraja College of Pharmacy is steadfastly committed to fostering an inclusive and diverse academic environment. This commitment is rooted in our belief that embracing diversity not only enriches the educational experience but also prepares our students to thrive in a global society. Over the years, we have undertaken numerous initiatives aimed at promoting inclusivity and understanding among students and faculty from varied backgrounds.

Our institution proudly celebrates the rich tapestry of cultures, languages, and traditions that our country and the world offer. We have institutionalized the celebration of national festivals and significant days that mark the contributions of eminent personalities to society. These events serve as platforms for our students and faculty to come together, irrespective of their cultural, regional, linguistic, and socio-economic backgrounds. By participating in activities organized by the National Service Scheme (NSS), Young Indian (YI), and YUVA Club, and during the commemoration of national festivals, our community develops a deeper sense of respect, tolerance, and harmony towards diverse cultures and perspectives.

One of the highlights of our academic year is the annual convocation ceremony. This event is not just a celebration of the achievements of our graduating students; it is also a source of inspiration and motivation for the entire JKKN community. We invite speakers who have made significant contributions to their fields to share their experiences and insights, fostering a sense of aspiration and determination among our students and staff.

Our commitment to national pride and unity is exemplified in our annual celebrations of Republic Day and Independence Day. These events are more than just formal observances; they are vibrant affirmations of our love and respect for our country. Through speeches and activities, we reflect on our responsibilities towards our nation and the broader world, reaffirming our dedication to contributing positively to society.

In the past five years, our college has significantly expanded the scope of our National Service Scheme (NSS) activities. These initiatives have been meticulously designed to promote inclusivity and to address various social, cultural, and environmental issues. Through these efforts, we aim to instill a sense of social responsibility in our students, encouraging them to become agents of positive change in their communities and beyond.

At J.K.K.Nattraja College of Pharmacy, we believe that education transcends the confines of classrooms and textbooks. It is about nurturing a global mindset and a compassionate heart. Our efforts to create a welcoming, inclusive environment reflect our commitment to this belief. We are dedicated to providing our students with an education that is not only academically rigorous but also culturally enriching and socially relevant. We are proud to highlight these initiatives as evidence of our ongoing commitment to excellence in education, inclusivity, and societal contribution.

7.2 Best Practices

7.2.1

Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual

Response:

Best Practice- I

1. Title of the Practice: "OKR-driven NAAC Criteria Committees and Working Groups: Enhancing Task Planning, Collaboration, and Accreditation Processes with Agile Methodology"

2. Objectives of the Practice

The OKR framework with Agile methodologies in NAAC Criteria Committees and Working Groups include aligning activities with NAAC criteria for a focused approach to accreditation, enhancing task planning, coordination, and management through iterative deadlines and adaptability, and fostering continuous improvement and streamlined collaboration using tools like Taskade and Agile boards. This approach emphasizes regular reviews for optimizing outcomes and encourages a culture of continuous improvement and accountability.

3. The Context

Challenges in implementing the OKR-driven NAAC Criteria Committees with Agile Methodology include aligning tasks with NAAC criteria and adapting to changes, coordinating diverse team members

within strict timelines, overcoming institutional culture and hierarchical barriers, and addressing technology adoption issues. Solutions involve structured Agile approaches for efficiency, fostering a culture of adaptability, and providing training and support for technology tools.

4. The Practice

The practice of blending the OKR framework with Agile methodologies in India's higher education aims to improve task management, collaboration, and accreditation efficiency. By aligning with NAAC criteria, setting iterative deadlines, and enhancing communication with IQAC meetings and Agile techniques, such as stand-ups and retrospectives, this approach fosters adaptability and ongoing enhancement. Utilizing tools like Taskade and Agile boards further supports this innovative strategy, making it a forward-thinking method for meeting accreditation needs and promoting collective progress in education.

5. Evidence of Success

Evidence of task progress and adaptability is demonstrated through regular IQAC meetings adhering to Agile practices, including daily stand-ups and sprint reviews, which highlight responsiveness to changes. Enhanced collaboration is seen through stakeholder engagement in Agile ceremonies, promoting a culture of communication. Alignment with NAAC criteria is achieved by comparing key results with objectives, with Agile methodologies facilitating regular task adjustments based on feedback.

6. Problems Encountered and Resources Required

Challenges in implementing the OKR framework and Agile methodologies include resistance to change, skill gaps, limited resources, and institutional constraints, necessitating effective change management, training, resource allocation, and a culture of adaptability for successful implementation. Essential resources needed encompass professional development programs, technical support, financial investment in software and infrastructure, communication platforms for seamless collaboration, and change management initiatives to foster a collaborative environment.

7. Notes:

Tailoring the approach to fit the institution’s unique goals and requirements, involving all stakeholders early, conducting pilot implementations for refinement, sharing insights with other institutions, and emphasizing regular evaluations for adaptability ensure successful implementation.

Best Practice II

1. Title: “Empowering Students through Experiential Learning: Bridging Theory and Practice.”

2. Objectives of the Practice:

To improve pharmacy education, develop an experiential learning framework that strengthens practical skills through real-world application, emphasizes patient-centered care, bridges academic knowledge with professional practice, fosters critical thinking and problem-solving abilities, and promotes interdisciplinary collaboration. This approach enables students to effectively apply theoretical knowledge, enhances their decision-making capabilities, and prepares them for multidisciplinary

healthcare environments.

3. The Context:

J.K.K.Nattraja College of Pharmacy, Kumarapalayam, emphasizes experiential learning in our pharmacy education framework to bridge the gap between theory and practice. Our program enhances practical skills, fosters patient-centered care, and cultivates critical thinking, aligning academic studies with professional realities. This approach prepares students to excel as skilled pharmacists in the evolving healthcare landscape by providing hands-on experiences with real-world healthcare scenarios and promoting interdisciplinary collaboration.

4. The Practice:

J.K.K.Nattraja College of Pharmacy, Kumarapalayam, has launched three significant initiatives: an **Adverse Drug Monitoring Centre** under the Pharmacovigilance Programme of India, a Drug Information Centre, and the **Pradhan Mantri Bhartiya Janaushadhi Kendra** at Komarapalayam. These initiatives exemplify our dedication to experiential learning, connecting theoretical knowledge with practical application in pharmaceutical care, drug safety, and community service. By involving students in pharmacovigilance activities, addressing real-world drug inquiries, and enhancing rural healthcare access through affordable medicines, these programs equip students with hands-on experience, critical thinking, and problem-solving skills.

5. Evidence of Success:

The success of “Empowering Students through Experiential Learning: Bridging Theory and Practice” is evident through various indicators:

Collaboration with Regulatory Bodies*:*

The initiative of the ***Adverse Drug Monitoring Centre*** is endorsed by the regulatory body of the Pharmacovigilance Programme of India (PvPI) and the Ministry of Health & Family Welfare. The *Drug Information Centre* collaborates with Govt. Headquarters Hospital, Erode; documentation of these partnerships can serve as evidence. Our institutions started the *Pradhan Mantri Bhartiya Janaushadhi Kendra*, a community pharmacy at Komarapalayam.

Documentation of Activities:

Institutions can maintain detailed records of activities conducted within the Adverse Drug Monitoring Centre. This could include reports on the number of adverse events identified, assessed, and reported, as well as any feedback/MoM from healthcare professionals or authorities.

Community Engagement*:*

Photographs, videos, or reports showcasing the active participation of students in patient counseling sessions, health camps, and other community engagement activities can serve as visual evidence of the initiative's implementation.

Student Query:

A student at J.K.K.Nattraja College of Pharmacy effectively managed a drug information query at the Drug Information Centre, demonstrating the centre's capacity to merge theory with practice. By researching and consulting databases, the student offered a comprehensive reply, proving the centre's role in enhancing practical skills and problem-solving. Recording such interactions and outcomes evidences the centre's educational impact, while students' contributions to newsletters and articles showcase their engagement and the practical advantages of the centre.

6. Problems Encountered and Resources Required:

Implementing community engagement practices faces challenges such as securing adequate resources, fostering community trust and participation through sensitive communication, managing logistical aspects of field activities, and conducting thorough data collection and impact assessment.

Resources required to implement this practice effectively include:

To enhance community engagement initiatives, essential support includes financial funding for events and supplies, training programs for developing communication and cultural skills, collaborations with healthcare facilities and NGOs, technology tools for data management, and active community participation in projects.

7. Notes:

Adopt a tailored and community-centered approach for health interventions, involve communities in decision-making, and focus on experiential learning for students. Emphasize continuous improvement through assessments and feedback, and ensure sustainability through long-term partnerships.

7.3 Institutional Distinctiveness

7.3.1

Portray the performance of the Institution in one area distinctive to its priority and thrust within 1000 words

Response:

J.K.K.Nattaraj College of Pharmacy encourages scientific innovation and thinking for its students through related activities both within and outside the institution. The Institution's Innovation Council (IIC) was initiated on the campus as per the norms of the Innovation Cell, Ministry of Education (MoE), Government of India during the academic year 2018-19.

Key objectives of the council:

1. To promote a culture of research, innovation, and entrepreneurship among students and staff
2. Identify and nurture innovative ideas and projects.
3. Provide mentorship and resources for students and staff to turn their ideas into reality
4. Organize workshops, competitions, and other events to encourage innovation and entrepreneurship
5. Commercialize the institution's research and development & Foster a supportive environment for innovation and entrepreneurship within the college community.

Functions of IIC

- To conduct various innovation, Intellectual Property Rights, and entrepreneurship-related activities prescribed by "MoE's Innovation Cell (MIC) in a time-bound manner.
- Identify and reward innovations and share success stories.
- Organize periodic workshops/ seminars/ interactions with entrepreneurs, investors, and professionals and create a mentor pool for student innovators.
- Network with peers and national entrepreneurship development organizations.
- Create an online repository to highlight innovative projects by the institution's faculty and students.
- Organize Hackathons, idea competitions, mini-challenges, etc., with the involvement of industries.

Innovation Ambassador Training Program

Innovation Ambassadors play a vital role as agents of change, fostering innovation and startup culture within educational institutions, nearby communities, and schools. At J.K.K. Nattraja Higher Education Institution (HEIs), 15 faculty members have been appointed as Innovation Ambassadors to spearhead Innovation and Entrepreneurship (I&E) activities on their respective campuses. These Ambassadors have conducted over 13 expert talks to inspire and educate their peers. Additionally, all 15 faculty members have undergone training in various aspects of innovation and entrepreneurship, including creativity, design thinking, business planning, venture development, investment and equity, Intellectual Property management, and technology commercialization. To support their development further, an Information and Communication Technology (ICT)-enabled training platform has been implemented, enabling faculty members to upskill and reskill in I&E and engage in post-training activities. The deployment of Innovation Ambassadors is not only about representation but also about building internal mentorship and fostering competent human resources within educational institutions, thus cultivating a thriving innovation and startup ecosystem on campuses.

YUKTI Innovation Repository

IIC Institutions play a pivotal role in fostering innovation through the creation of the YUKTI innovation repository at each institute level. They actively identify and scout ideas, innovations, and start-ups from a diverse range of stakeholders, including students, alumni, faculty members, staff, and entrepreneurs associated with the institute. This repository serves as a centralized hub for storing and nurturing innovative projects developed within academic institutions. IICs provide continuous support to these innovations, offering handholding assistance such as mentoring, grant support, nominations for national innovation challenges, and facilitating connections with incubation units, accelerators, and Angel/VC

networks. Additionally, they play a key role in facilitating technology transfer processes, enabling the transformation of innovative ideas into tangible products or services.

Objectives Achieved:

1) To promote a culture of research, innovation, and entrepreneurship among students and staff

J.K.K.Nattraja institution has developed a policy and circulated the same among staff and students to encourage research activities within the institution.

- Section 5 of HR Policy 2023 underscores initiatives to encourage research by providing staff with benefits like remote work flexibility, incentives, excursions, and reimbursement of conference registration fees upon publication of significant research findings.

- The J.K.K.Nattraja College of Pharmacy's Solution-Oriented Research and Entrepreneurship Policy 2023 aims to foster innovation and entrepreneurship among undergraduate learners and faculty by guiding project ideation and execution with a focus on real-world applications. It encourages collaborative research that contributes to the institution's Centre of Excellence, offering incentives like attendance relaxation, bonus marks, and recognition for significant contributions. Additionally, the policy supports the integration of AI tools in projects, ensuring a blend of technological advancement with academic rigor and practical application.

2) **Identify and nurture innovative ideas and projects.**

Various events such as seminars and workshops directly align with the overarching objective of identifying and nurturing innovative ideas and projects within the pharmaceutical domain. By covering topics such as patenting, drug discovery, and startup strategies, they provide participants with essential knowledge and tools to innovate in the industry. The NEC Startup Entrepreneurship Summit facilitates networking and learning opportunities, fostering an environment conducive to idea generation and project development. Additionally, discussions on prototype validation and situational entrepreneurship empower attendees to transform innovative concepts into viable startup ventures, thereby fulfilling the objective of nurturing entrepreneurship and innovation within the J.K.K.Nattraja College of Pharmacy.

3) Provide mentorship and resources for students and staff to turn their ideas into reality

Several seminars were meticulously organized, each strategically leveraging the overarching objective of turning ideas into reality. Some of the key events include immersive sessions such as the Entrepreneurship Awareness Camp, pharmacology research in oncology and pharmacy practice in the digital age, gaining insights into emerging methodologies and technologies. Furthermore, few seminars addressed the challenges and opportunities within the startup ecosystem, emphasizing ethical and legal compliance. By providing mentorship and resources, these sessions empowered attendees to transform innovative ideas into impactful ventures.

4) Organize workshops, competitions, and other events to encourage innovation and entrepreneurship

Various workshops, seminars, and exhibitions were organized, centering on innovation, entrepreneurship, funding, IPR, research collaborations, and startups. With the primary goal of providing mentorship and

resources, these events aimed to help students and staff actualize their ideas. Participants engaged in interactive sessions, gaining practical insights into ideation, business models, and funding access. Discussions covered IPR protection, research collaboration strategies, and startup navigation, while exhibitions showcased innovative projects, fostering networking and collaboration, thus fulfilling the objective effectively.

5) Commercialize institutions Research and development & Foster a supportive environment for innovation and entrepreneurship within the college community.

By allowing student's participation in varied competitions notably the "Tamil Nadu Student Innovators Award" conducted by the Entrepreneurship Development and Innovation Institute (an autonomous society of the Government of Tamil Nadu), J.K.K.Nattraja College of Pharmacy has provided a conducive environment for its students to showcase their research talents and was successful in generating a seed grants worth 50,000 to 1,00, 000/-.

5. CONCLUSION

Additional Information :

At J.K.K. Nattraja College of Pharmacy, our transformation from a teaching-centric to a research-oriented institution is underscored by our dedicated efforts in industry collaboration, innovation, and the cultivation of an entrepreneurial ecosystem. Our proactive alignment with real-world applications and challenges demonstrates our unwavering commitment to impacting the future of healthcare and pharmaceutical sciences significantly.

Key Highlights:
Industry Collaboration: We have started successfully attracting industrial projects, bridging the gap between academia and industry needs.
Innovative Initiatives: Our active engagement in programs like YUVA promotes leadership, creativity, and a proactive approach to societal challenges among our students and faculty.
Nattraja Launch-Pad Incubation Centre: Established as a beacon for incubating start-up ideas and research, this center serves as a testament to our commitment to innovation and the practical application of research.
Research-Centric Transition: We are steadfast in our journey towards becoming a premier research institution, enriching our educational offerings with practical insights and contributing significantly to the fields of pharmaceutical sciences and healthcare.
Centers of Excellence: We have started converting departments into Centers of Excellence, enhancing our academic and research capabilities, fostering an environment that encourages excellence in various pharmaceutical disciplines.
Attracting Esteemed Faculty: We have begun attracting teaching faculty from top Indian institutions, enhancing our educational quality and research capabilities with their distinguished expertise and insights.
Integration of Advanced AI Technologies: Our faculty and students are exposed to cutting-edge AI technologies like Bing and ChatGPT. We have also subscribed to ChatGPT Plus, ensuring our community remains at the forefront of technological advancements in education and research.
Professional Development in National Education Policy: All faculty members have completed a 36-hour Professional Development Programme on the Implementation of the National Education Policy, conducted by IGNOU under the Pandit Madan Mohan Malaviya National Mission on Teachers & Teaching. This training, endorsed by the Ministry of Education, Government of India, and approved by UGC, has equipped our educators with the latest pedagogical strategies and insights, preparing them to effectively navigate and implement contemporary educational reforms.
J.K.K. Nattraja College of Pharmacy is not only progressing towards its vision but also establishing new benchmarks for academic institutions in fostering a culture of innovation, research, and excellence.

Concluding Remarks :

Guided by the visionary ethos encapsulated in our institution's mission and vision, J.K.K. Nattraja College of Pharmacy strides towards sculpting a future where education transcends traditional boundaries, fostering a generation of pharmacists ready to meet the challenges of the 21st century. Our commitment to excellence, research/innovation, and holistic development is not just a testament to our rich legacy but also a beacon guiding our journey forward.

As we embrace the dynamics of an ever-evolving educational landscape, our focus remains steadfast on

equipping students and faculty with cutting-edge artificial intelligence tools and advanced pedagogical strategies. This commitment ensures that our graduates are not only adept at navigating the complexities of healthcare but are also innovators and leaders capable of making significant contributions to the global community. Our institution's pioneering spirit is vividly reflected in our unwavering dedication to providing a multidisciplinary education, a cornerstone of the National Education Policy (NEP), which we have embraced wholeheartedly. This approach does not merely equip our students with a broad spectrum of skills but fosters a deeper understanding of the interconnectedness of knowledge, ensuring they emerge as versatile, adaptable, and forward-thinking professionals ready to lead and innovate.

12	10	15	20	13

Remark : DVV has made changes as per prescribed format shared by HEI.

7.1.2

The Institution has facilities and initiatives for

1. **Alternate sources of energy and energy conservation measures**
2. **Management of the various types of degradable and nondegradable waste**
3. **Water conservation**
4. **Green campus initiatives**
5. **Disabled-friendly, barrier free environment**

Answer before DVV Verification : A. 4 or All of the above

Answer After DVV Verification: A. 4 or All of the above

Remark : DVV has made changes as per prescribed data shared by HEI

7.1.3

Quality audits on environment and energy regularly undertaken by the Institution. The institutional environment and energy initiatives are confirmed through the following

1. **Green audit / Environment audit**
2. **Energy audit**
3. **Clean and green campus initiatives**
4. **Beyond the campus environmental promotion activities**

Answer before DVV Verification : A. All of the above

Answer After DVV Verification: B. Any 3 of the above

Remark : DVV has made changes as per prescribed data shared by HEI
